

Senior Lab/Field Technologist

P. Machibroda Engineering Ltd. (PMEL) is a Geotechnical and Geoenvironmental Engineering Consulting firm based in Saskatoon, SK. We are currently seeking a Senior Lab/Field Technologist to join our Materials Testing Team. If you are looking for a dynamic opportunity in a fast-paced environment, this position might be a fit for you.

As the Senior Lab/Field Technologist, you'll provide direction and supervision within the lab and field to ensure safe, effective and efficient use of lab/field personnel to complete requests by their required deadlines. You'll also assist with training new team members.

The successful candidate would ideally bring a minimum of 3 years experience with a comprehensive knowledge of construction materials lab and field testing. The candidate must have a Civil Technician or Technologist diploma and be in good standing as a member of the Technology Professionals Saskatchewan. An A.Sc.T. designation would be an asset. In addition to the required technical skills, must also demonstrate flexibility, initiative, a strong work ethic and the ability to work within a team environment. Strong written and verbal communication skills are essential for success in this position.

PMEL is committed to providing an attractive Total Rewards package including industry-competitive wages, a comprehensive group benefit plan, matching group retirement savings plan as well as participation in a company profit-sharing plan where employees are rewarded for individual performance.

Interested applicants can apply by email to hr@machibroda.com or drop off a resume at 806-48th St E. Only those applicants selected for an interview will be contacted.
