

Lab/Field Technician

We are currently seeking a full time, permanent Lab/Field Technician to join our Construction Materials Testing Team. If you are looking to start your civil engineering technologies career in a fast-paced environment, this position might be a fit for you.

As a Lab/Field Technician, your key responsibilities in this role will include the following:

1. Follow all safe work practices and procedures while performing both field and laboratory tests. Typical duties would include density testing in the field, concrete testing (field testing, cylinder preparation and strength testing), and various laboratory analyses of soils (proctors, sieves, limits, hydrometers, CBR's, moisture contents and unit weights);
2. Perform testing procedures in accordance with CCIL specifications, where applicable.

Skills and Qualifications:

1. Civil Technologist or Technician diploma or a minimum of 1 year of relevant experience would be considered an asset;
2. Strong written and verbal English communication skills;
3. Valid Class 5 Driver's License with a clean abstract;
4. Ability to lift and carry up to 50 lbs.;
5. Ability to pass a pre-employment drug & alcohol test.

PMEL is committed to providing a Total Rewards package including industry-competitive wages, group benefits, company matched retirement savings plan, safety wear allowance as well as an opportunity to participate in a company profit-sharing plan.

Interested applicants can apply by email to hr@machibroda.com. Only those applicants selected for an interview will be contacted.
